Choose "**Professional Diagnostics**" NOT "Standard"

ONCE THE ORDER IS PLACED LOOK FOR AN EMAIL FROM: DONOTREPLY@TOYOTA.COM

D donotreply@toyota.com

Action Required: Toyota Enterprise Security Service (TESS) account re-enable email verification

To Clarke, Edward@CHP

[**Warning:** This email originated outside of CHP. Do not click links or attachments unless you recognize the sender and know the content is safe.]
Hi Ed,

You or someone on your behalf has requested to re-enable this email address for use with Toyota TechInfo application. Please click the link below to authorize your account. If you are not aware of this request, do not click the link.

https://cpidm-v1-pdc2.toyota.com/EmailVerificationServlet/EmailVerificationServlet?usertoken=EDCLARKE%40CHP.CA.GOV%7C%7CEnable%7C%7C5356%3AEq7RCAM5y6Ty5p7EldKvd9bcQz2sgc5d06aIL2EbsYQ%2FLbsFL935Z%2FU2DRkjnx4r

If clicking the above link does not work, copy and paste the URL in a new browser.

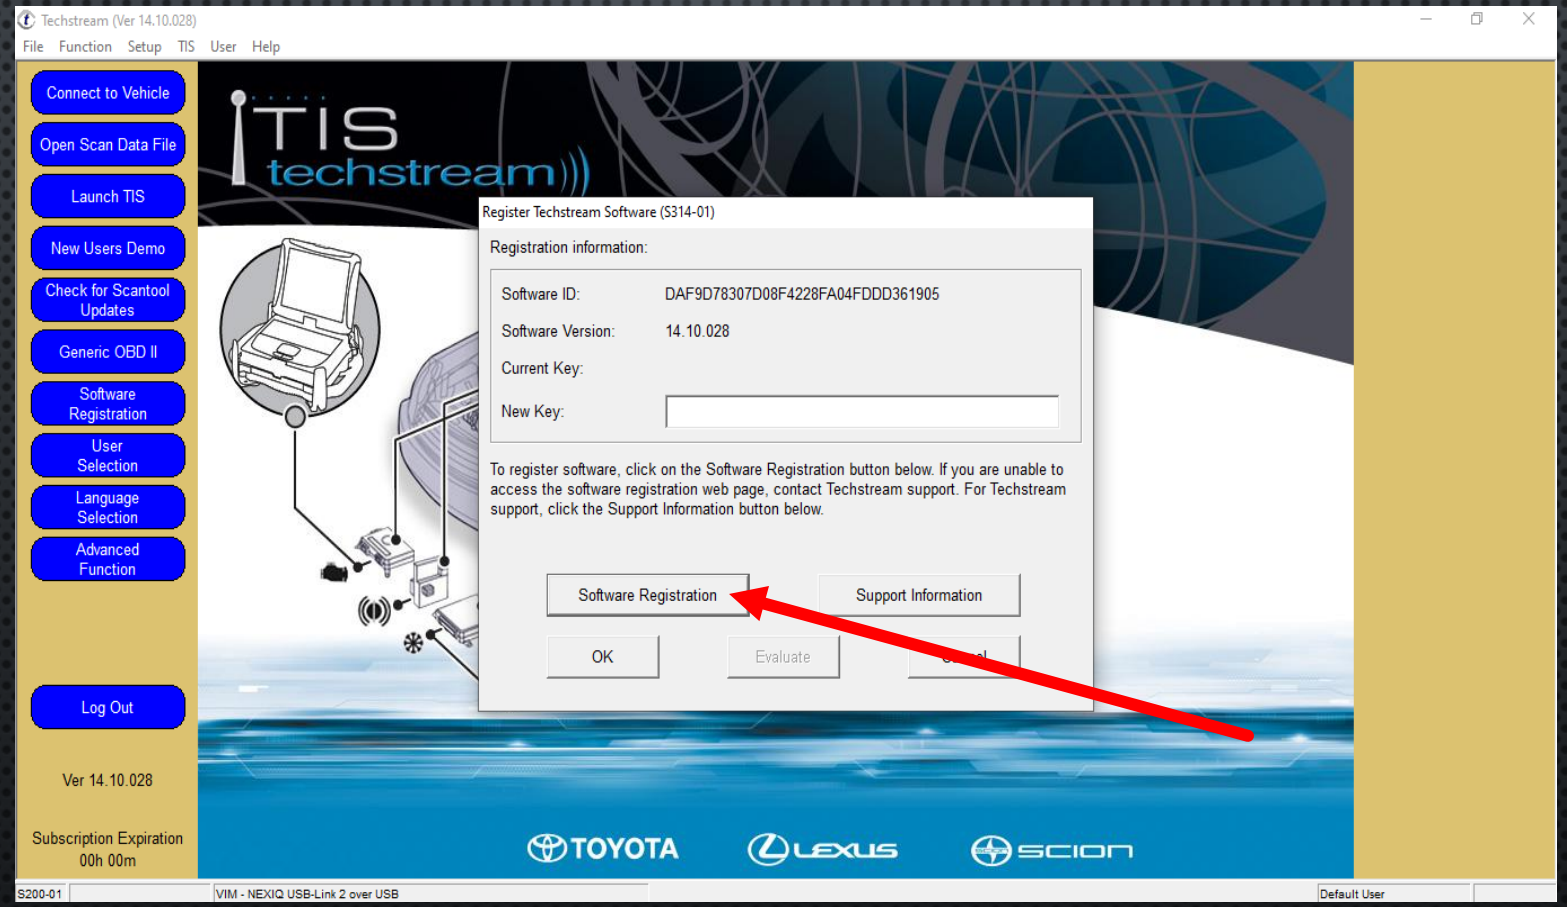

Please note:
Account may take up to 24 hours to activate.
This link will expire 96 hours after your original verification request.

Thank you!

Please do not reply to this mail. For additional assistance, contact your respective Service Desk.

This email often goes to a **spam** folder and the Techstream subscription will not activate until you click the link. I often forget this…

ONCE ACTIVATED, OPEN THE SOFTWARE AND REGISTER IT TO GET YOUR LICENSE KEY.

WHAT DATA DOES THE VCH INCLUDE?

- If you only download the CDR data you may be missing out on other data, as this records post-trigger event data as well. Useful for non-deployment, multiple impact and sideswipe crashes that aren't captured by the Bosch CDR report.
- Includes: all the normal stuff like speed, rpm, accelerator, brakes, etc. but also has yaw rates, lat and long g sensors, brake pressure, steering angle, shift position, and all the ADAS system related data.
- May have forward facing camera images

Vehicle Control History – Supported Vehicles

- Vehicle Control History was introduced as follows:
- 2013 Toyota RAV4
- 2014 Toyota Highlander and Lexus IS250/350
- 2015 Toyota Camry, Corolla, Prius C, Prius V, and Lexus NX and RC
- 2016 Toyota Avalon, Land Cruiser, Mirai, Prius, Tacoma, Scion iM, and Lexus ES, GS, LX, and RX
- *I presume all newer models are supported*

Connecting to the Vehicle

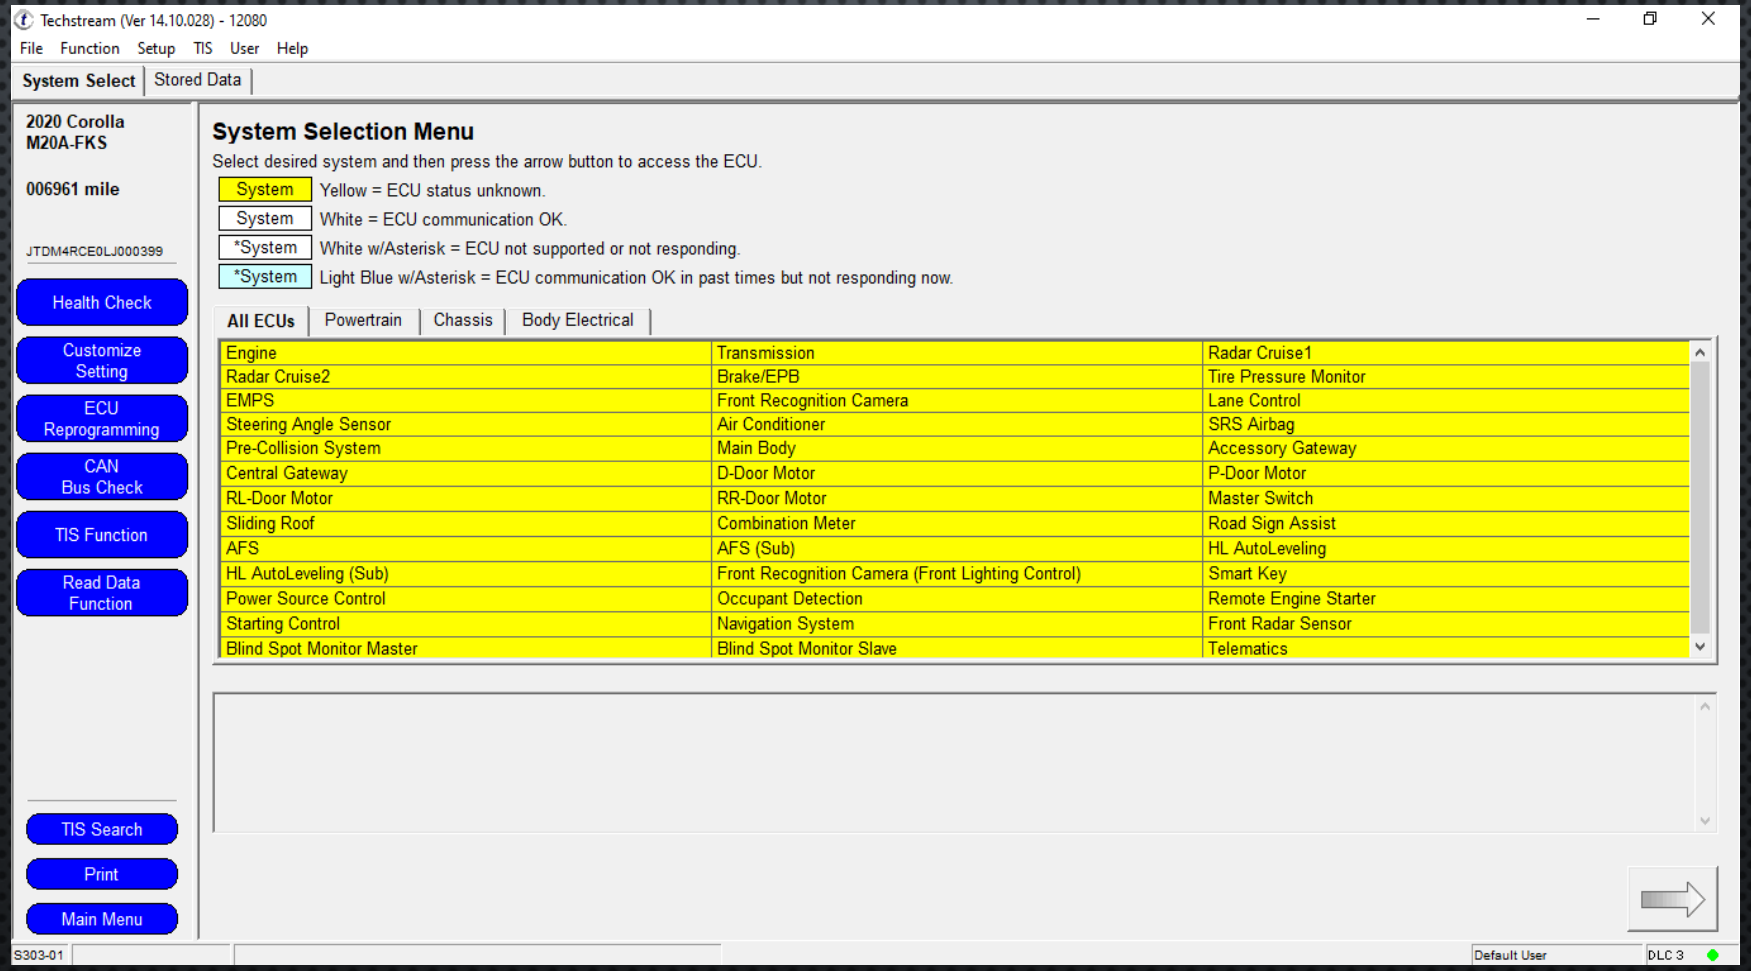

- **No** direct to module connection, must be through OBD/DLC. But you can backpower the module like an EDR download.
- The VCH data is stored in the EDR, which Toyota calls the Airbag Electronic Control Unit.

Equipment

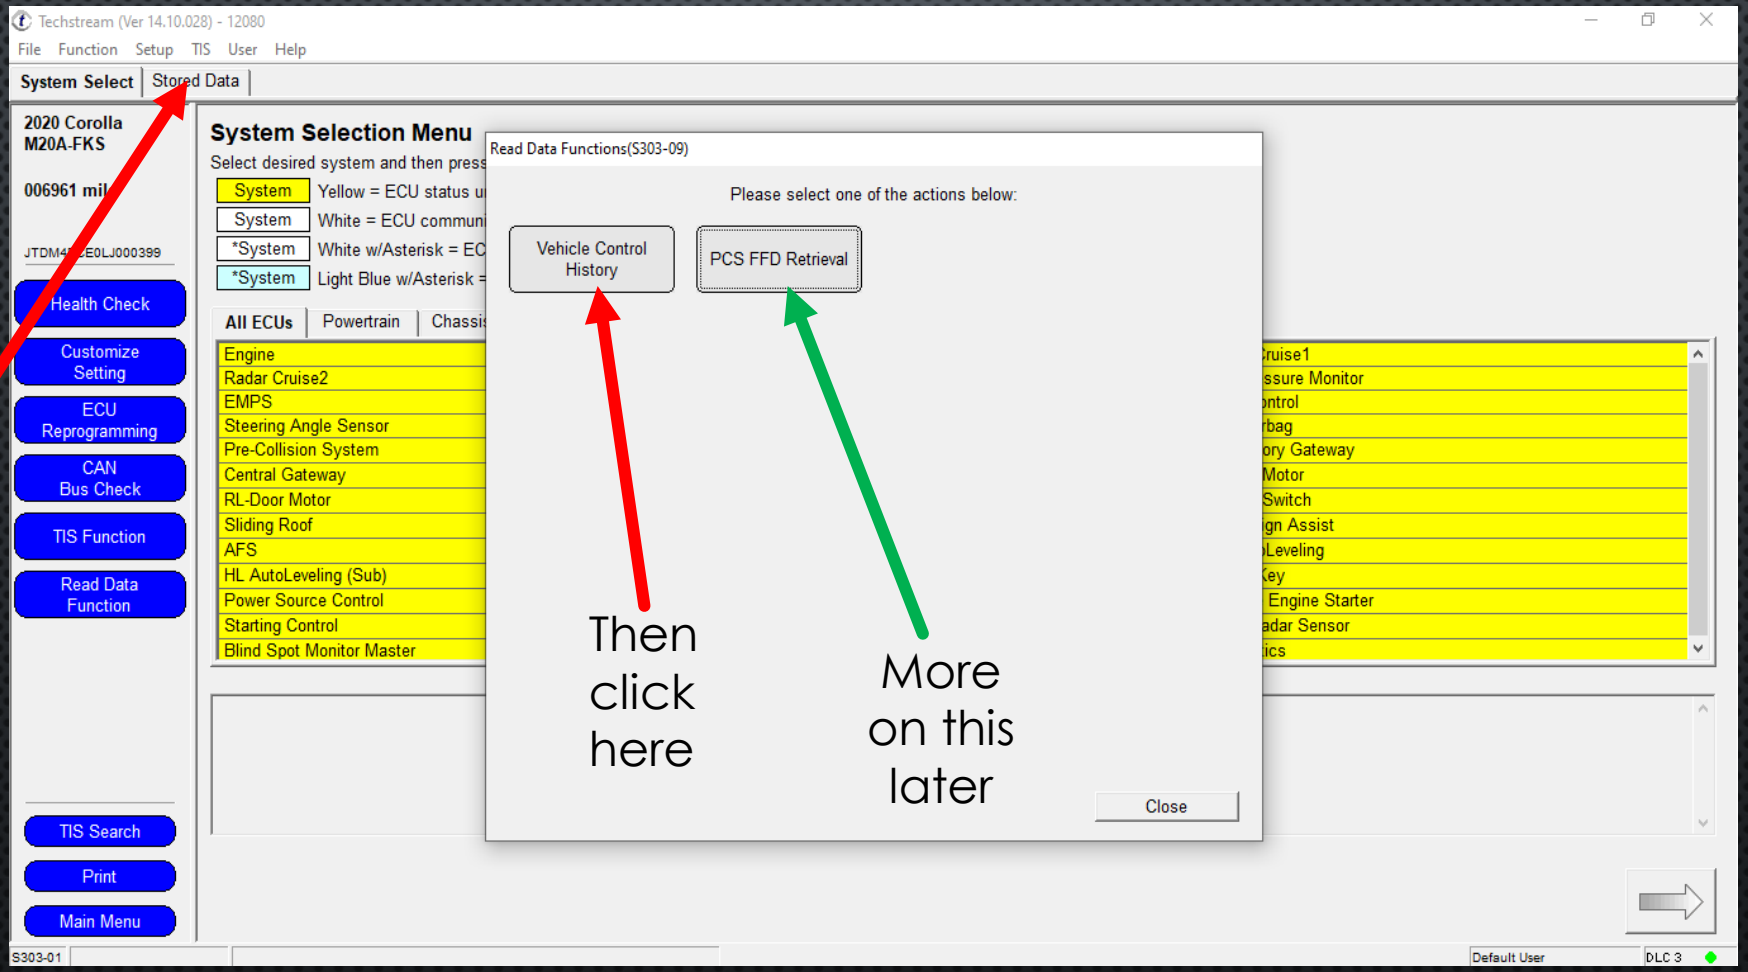

- Laptop with Techstream software
- Vehicle interface device with OBD/DLC connector (Any of the Following)
  - **USB-Link 2** ($700)
  - **Toyota MongoosePro** ($500)
  - **CDR 900** ($4k)

ACCESSING THE VCH:

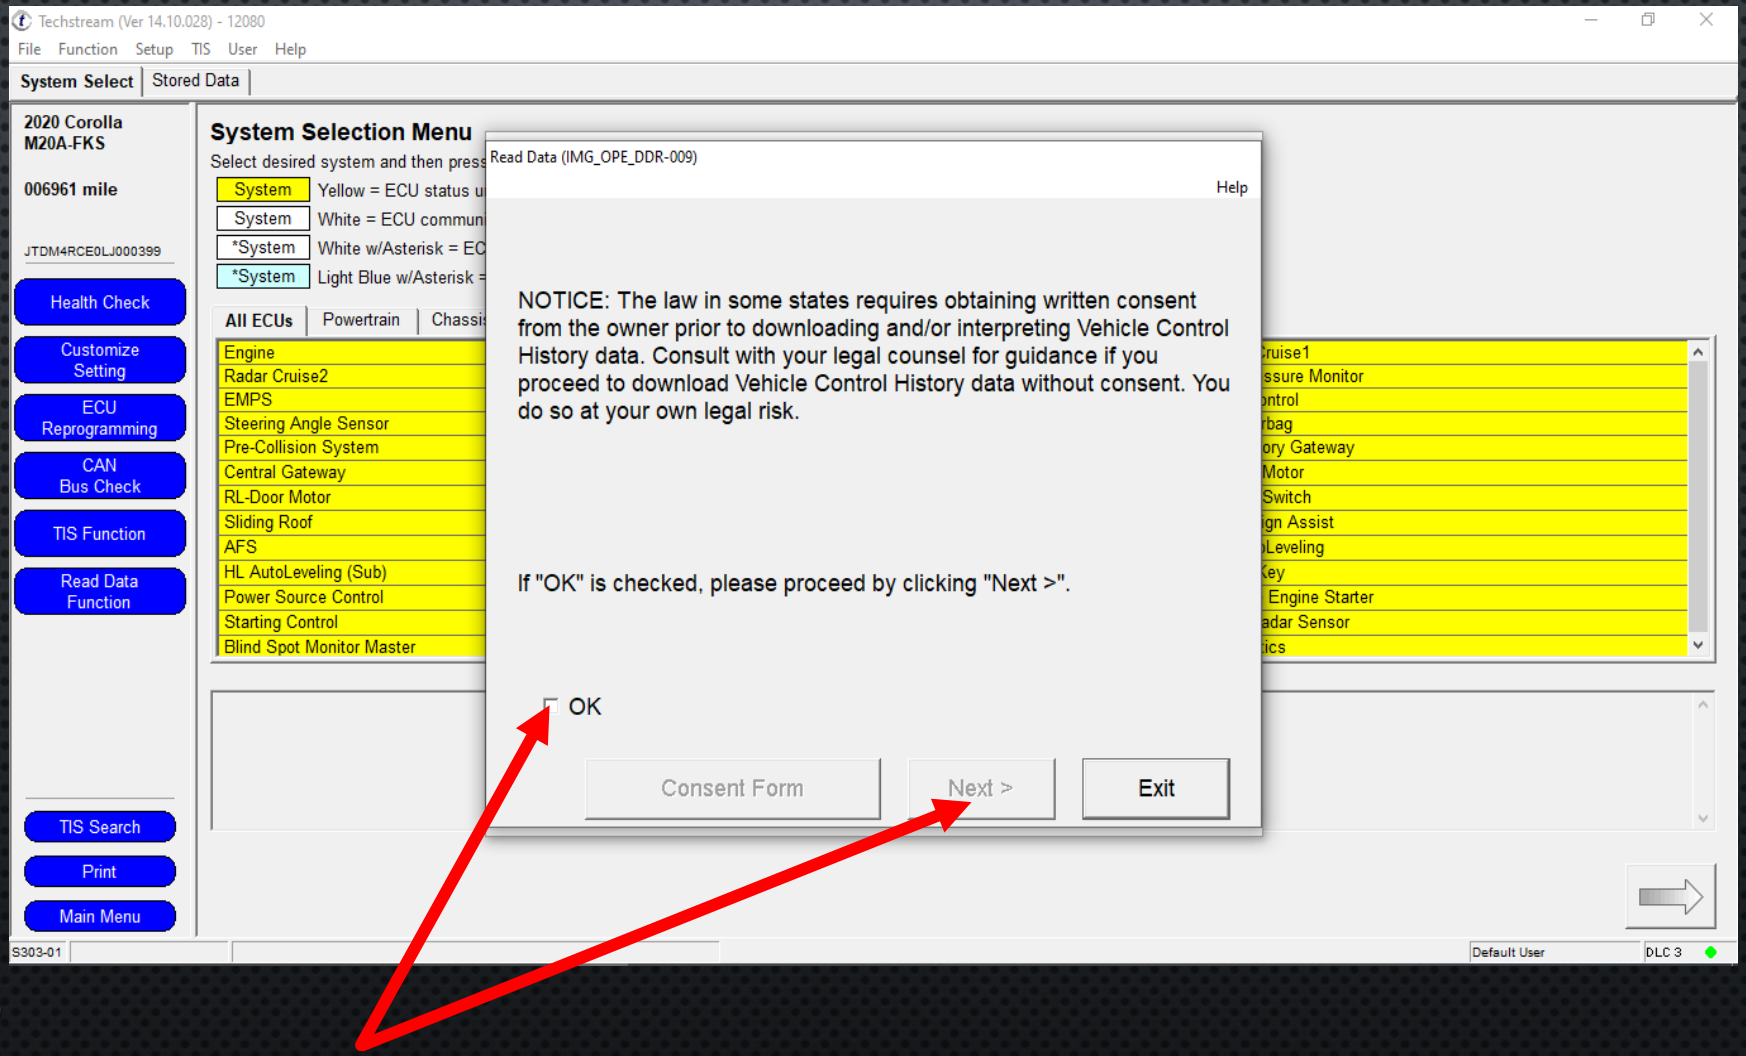

1. OPEN THE SOFTWARE
2. CLICK CONNECT TO VEHICLE

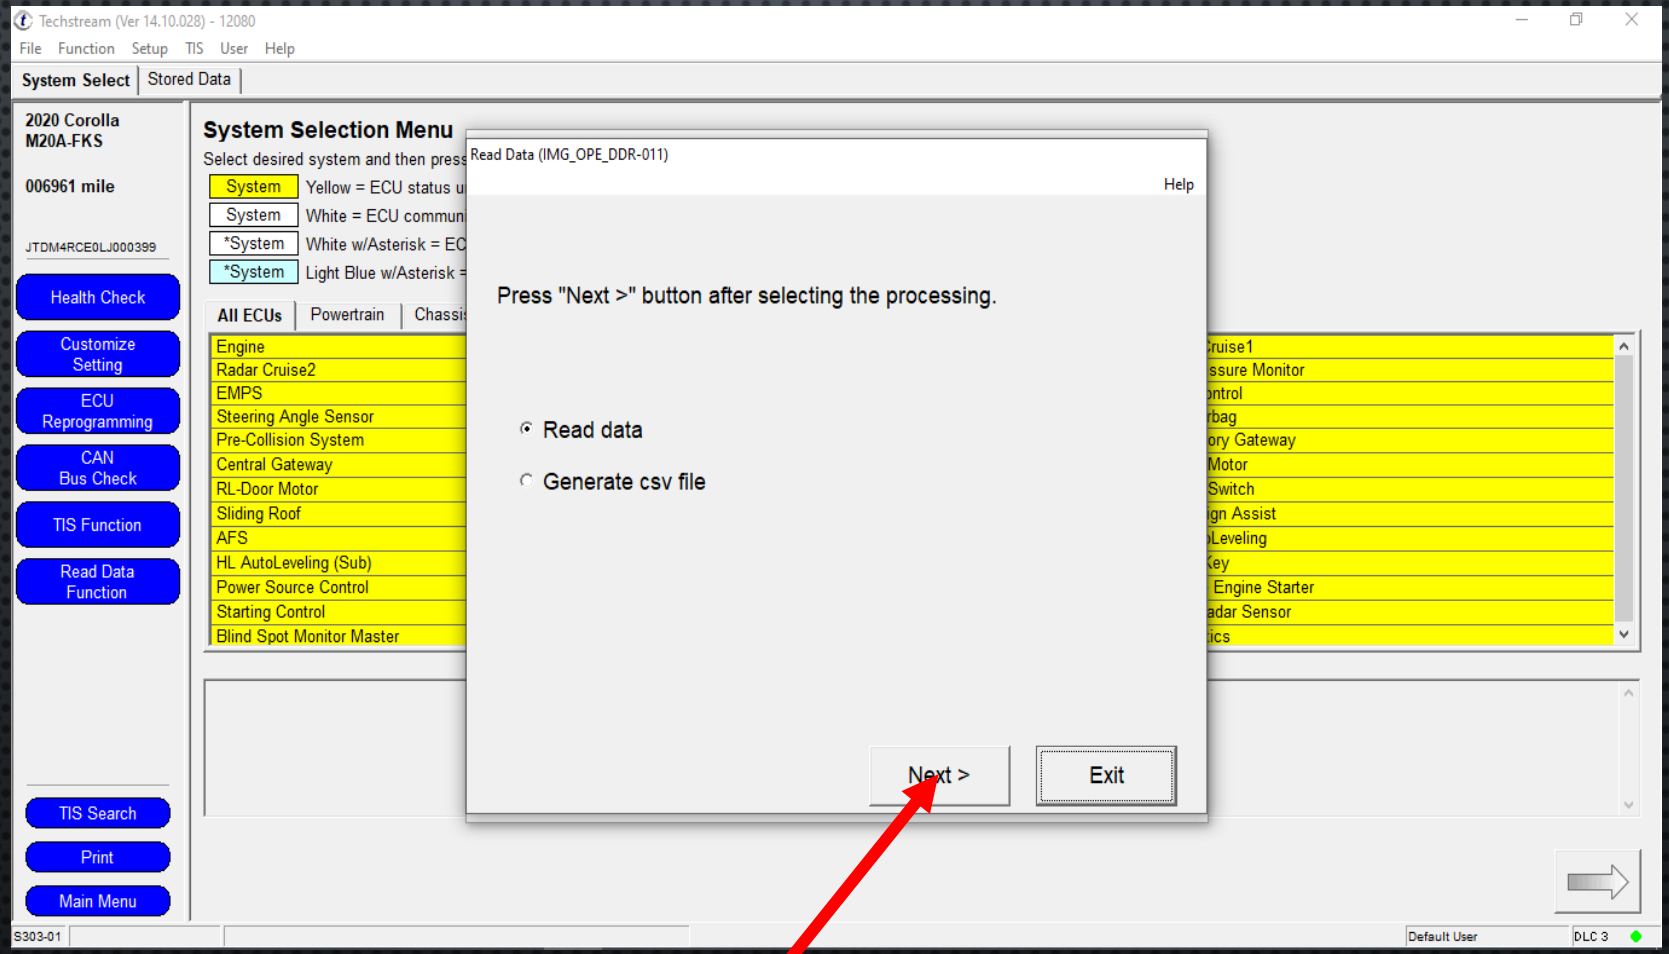

CLICK ON **STORED DATA** TO ACCESS VCH AND FORWARD FACING CAMERA

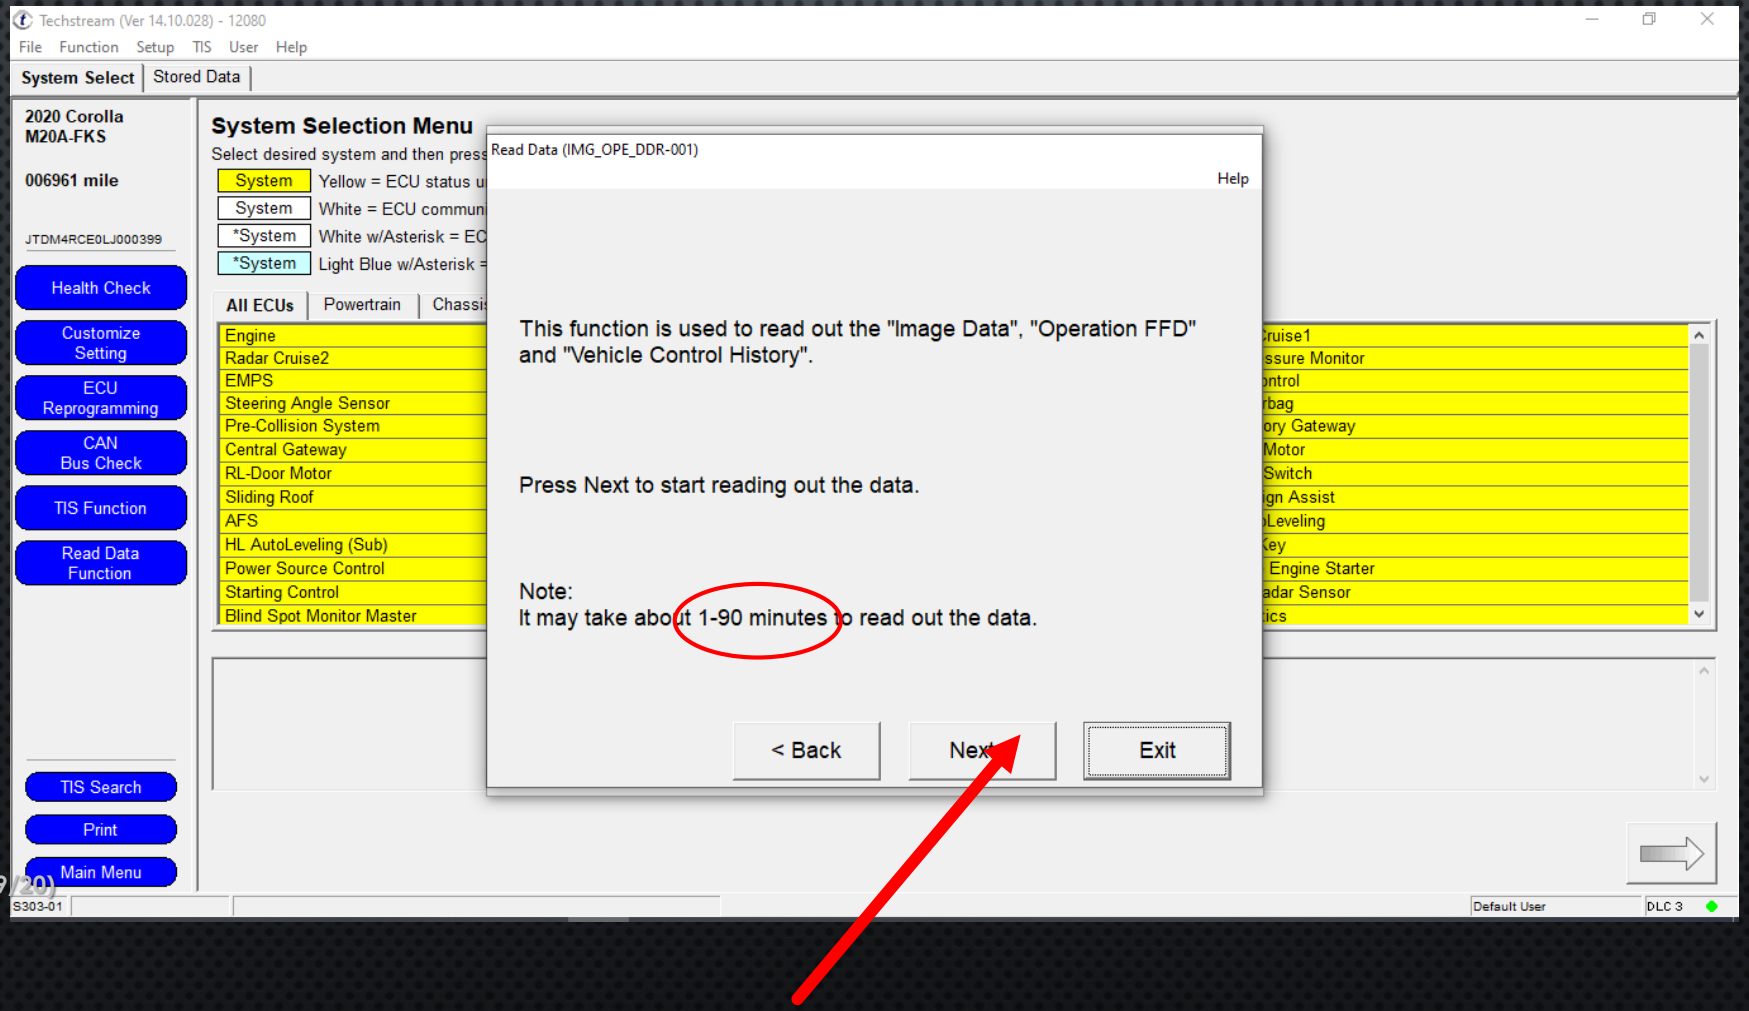

I ASSUME YOU HAVE PROPER LEGAL AUTHORITY?!

CHOOSE "READ DATA"

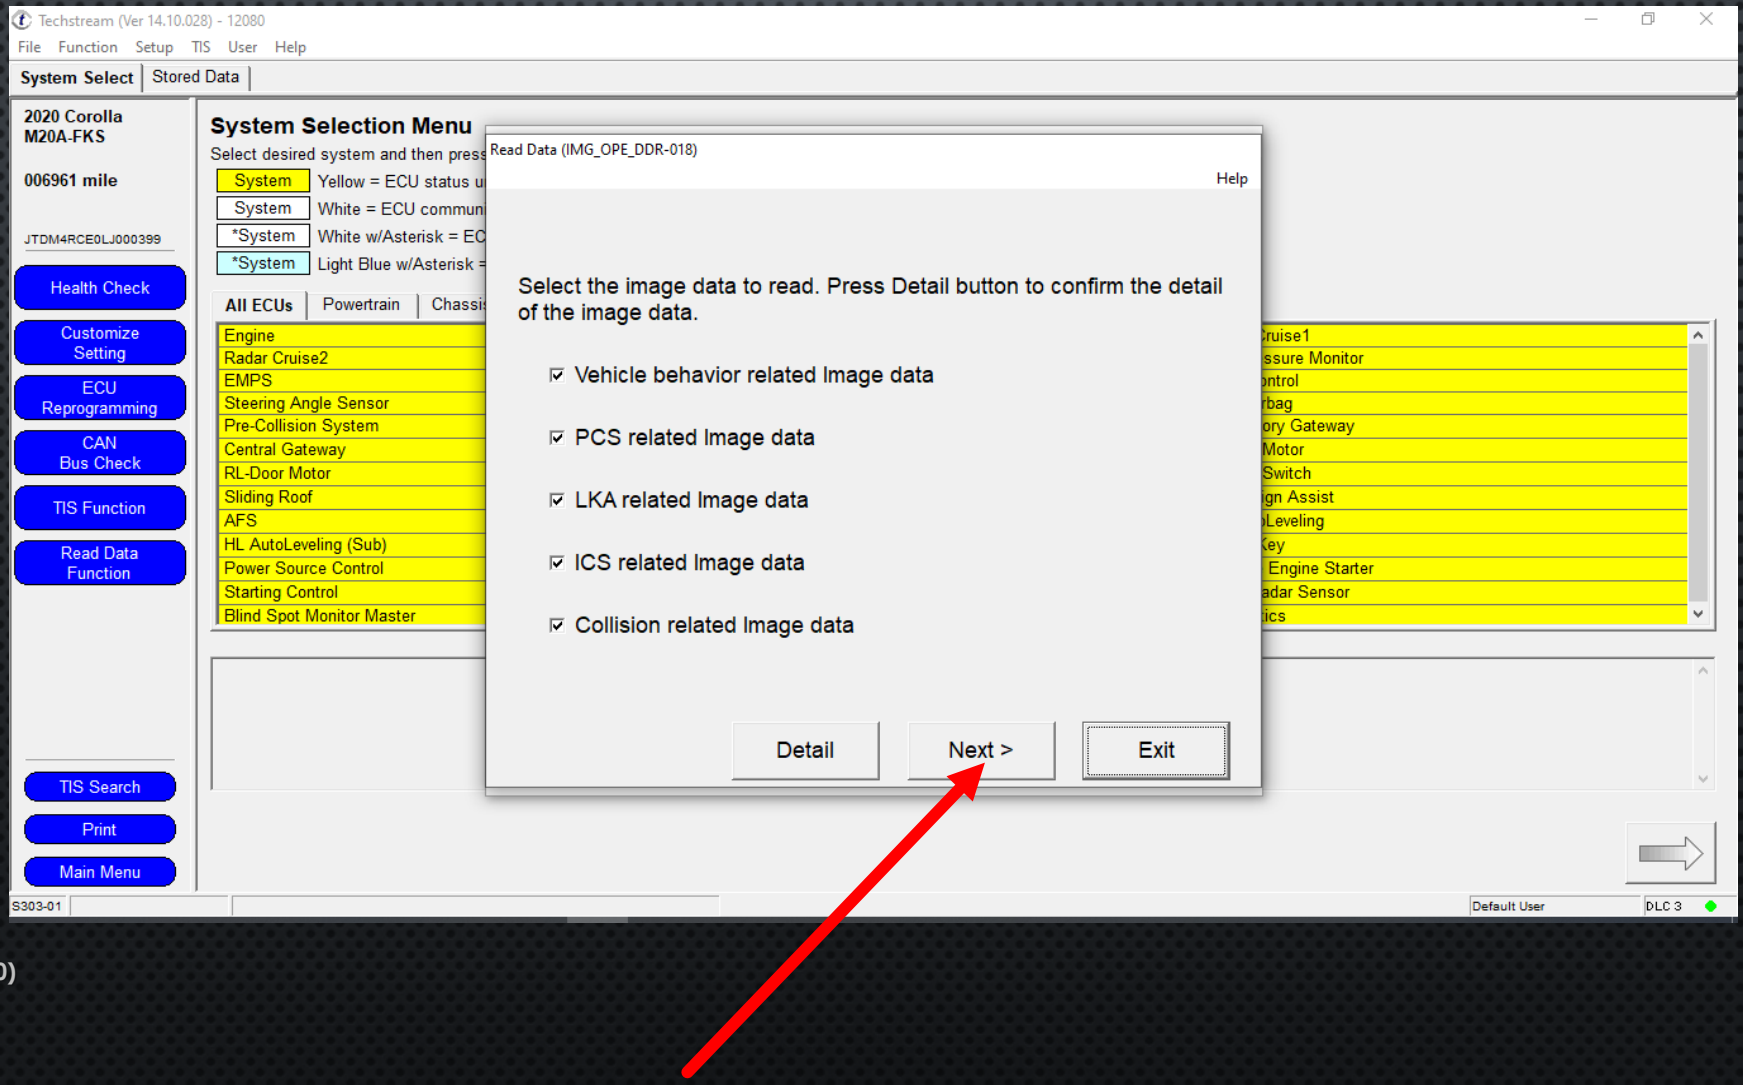

IN MY EXPERIENCE IT HAS TAKEN 5-15 MINUTES TO DOWNLOAD THE DATA

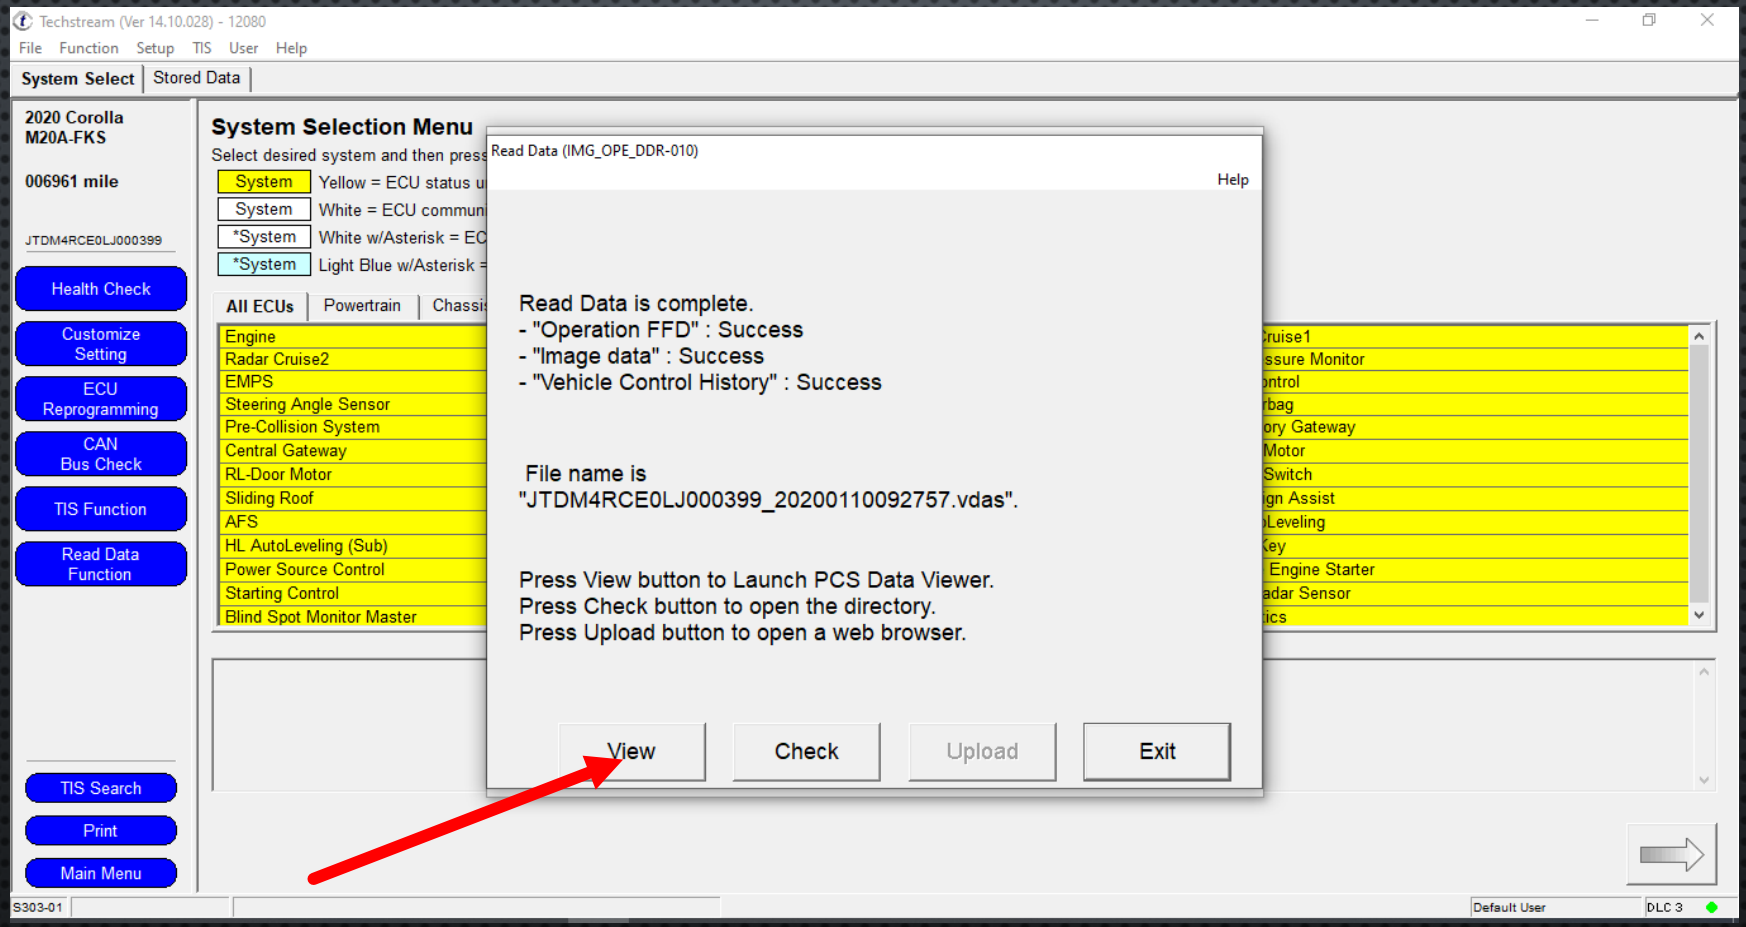

MIGHT AS WELL SELECT THEM ALL…

- PCS = Pre-Collision System
- LKA = Lane Keeping Assist
- ICS = Intelligent Clearance Sonar (parking)

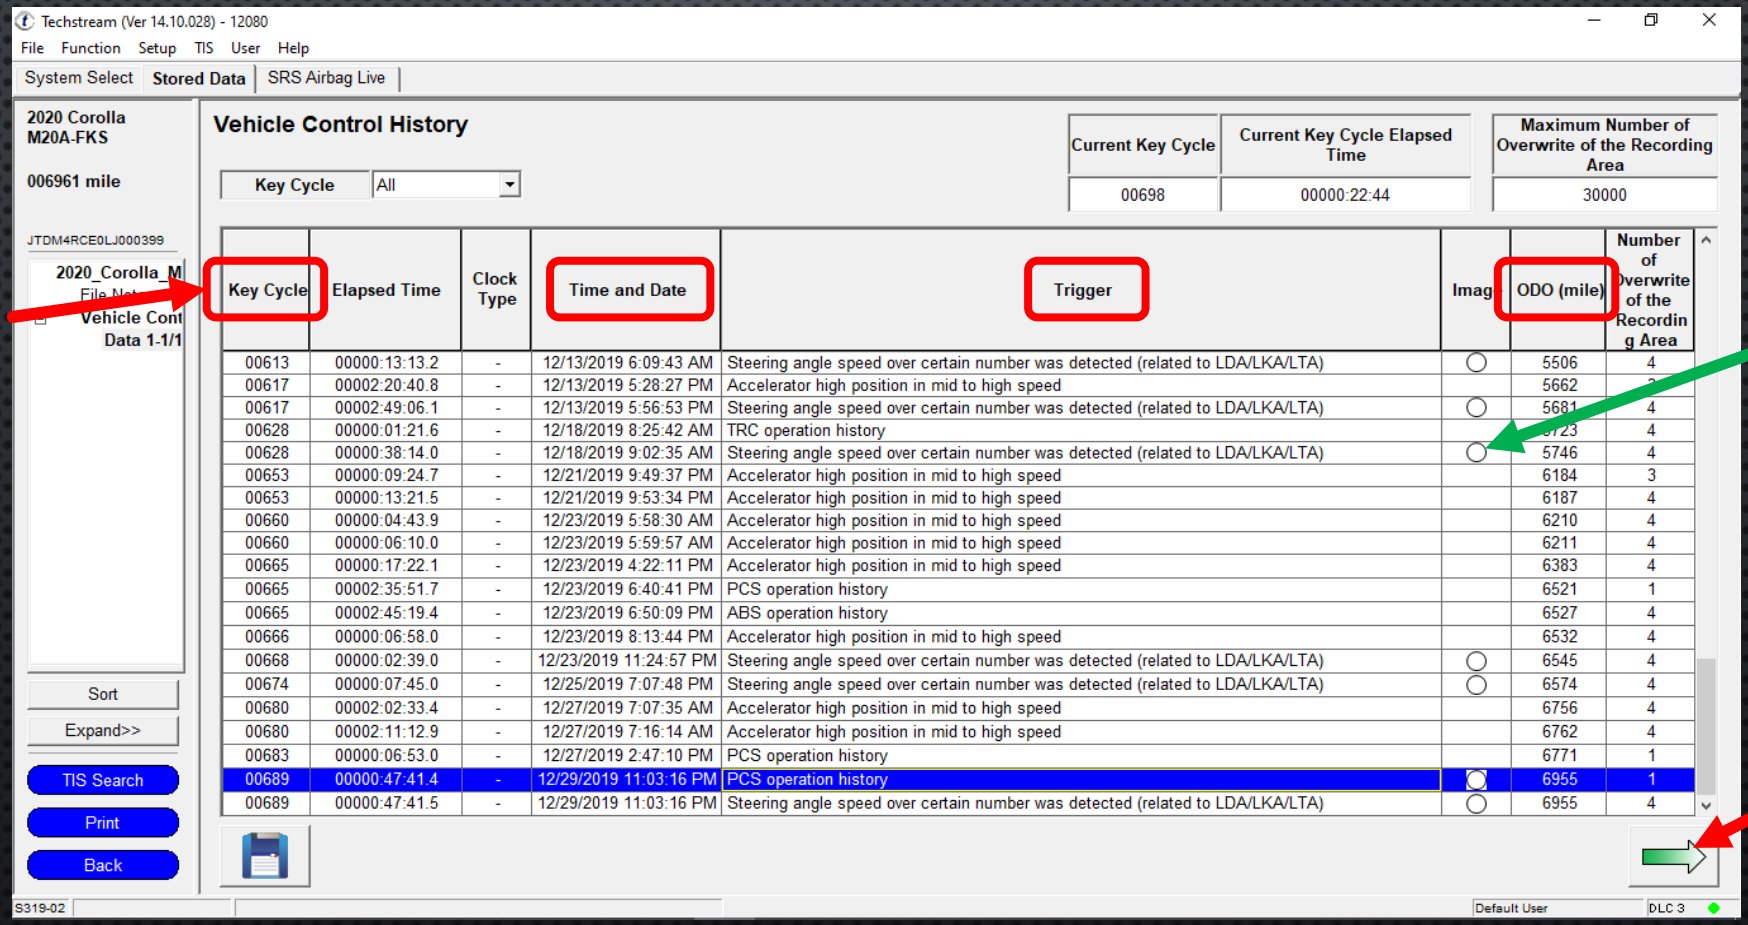

ONCE DOWNLOADED, CLICK VIEW

Remember once your 2-day license expires you cannot view the data (.vdas file) so make sure you export to Excel

AT LEAST 26 TRIGGER EVENTS CAUSE DATA EVENT DATA TO BE STORED[1]

Find the events relevant to your investigation

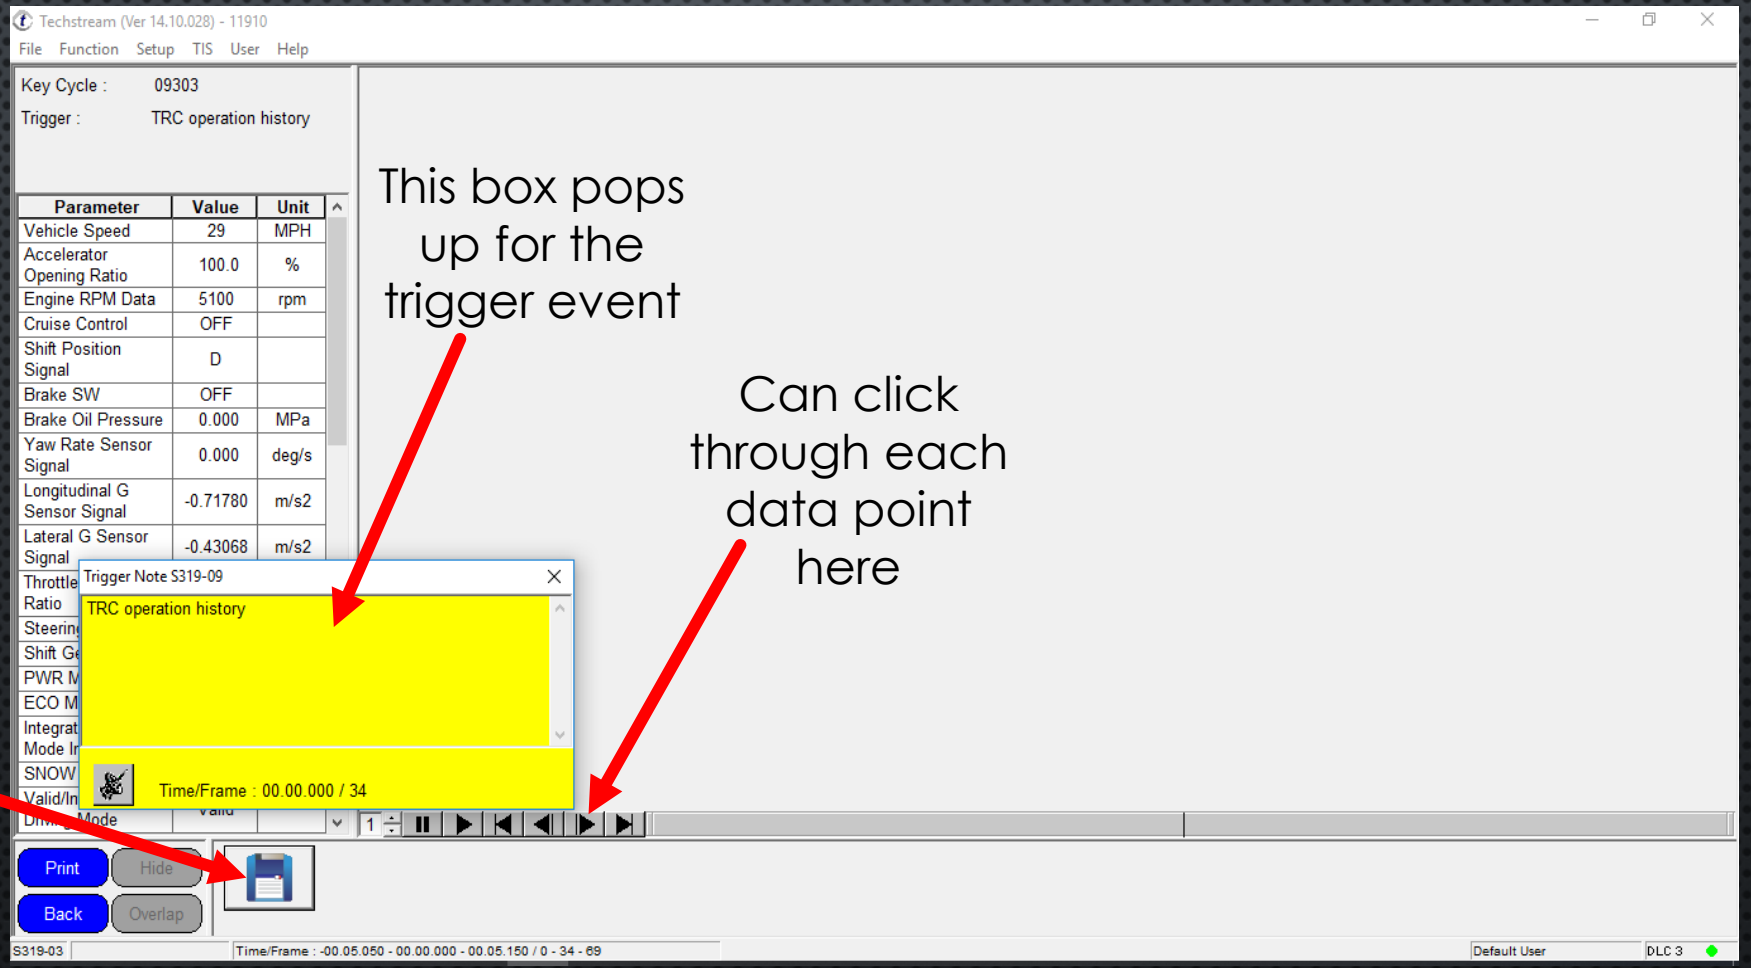

Circle indicates camera images are recorded

Click to view event data

Some events record at 2 Hz, other record at 6.67 Hz. Most triggers record 5 seconds before and after trigger event. See SAE 2016-01-1495 for specific list.

DATA FROM INDIVIDUAL TRIGGER EVENT

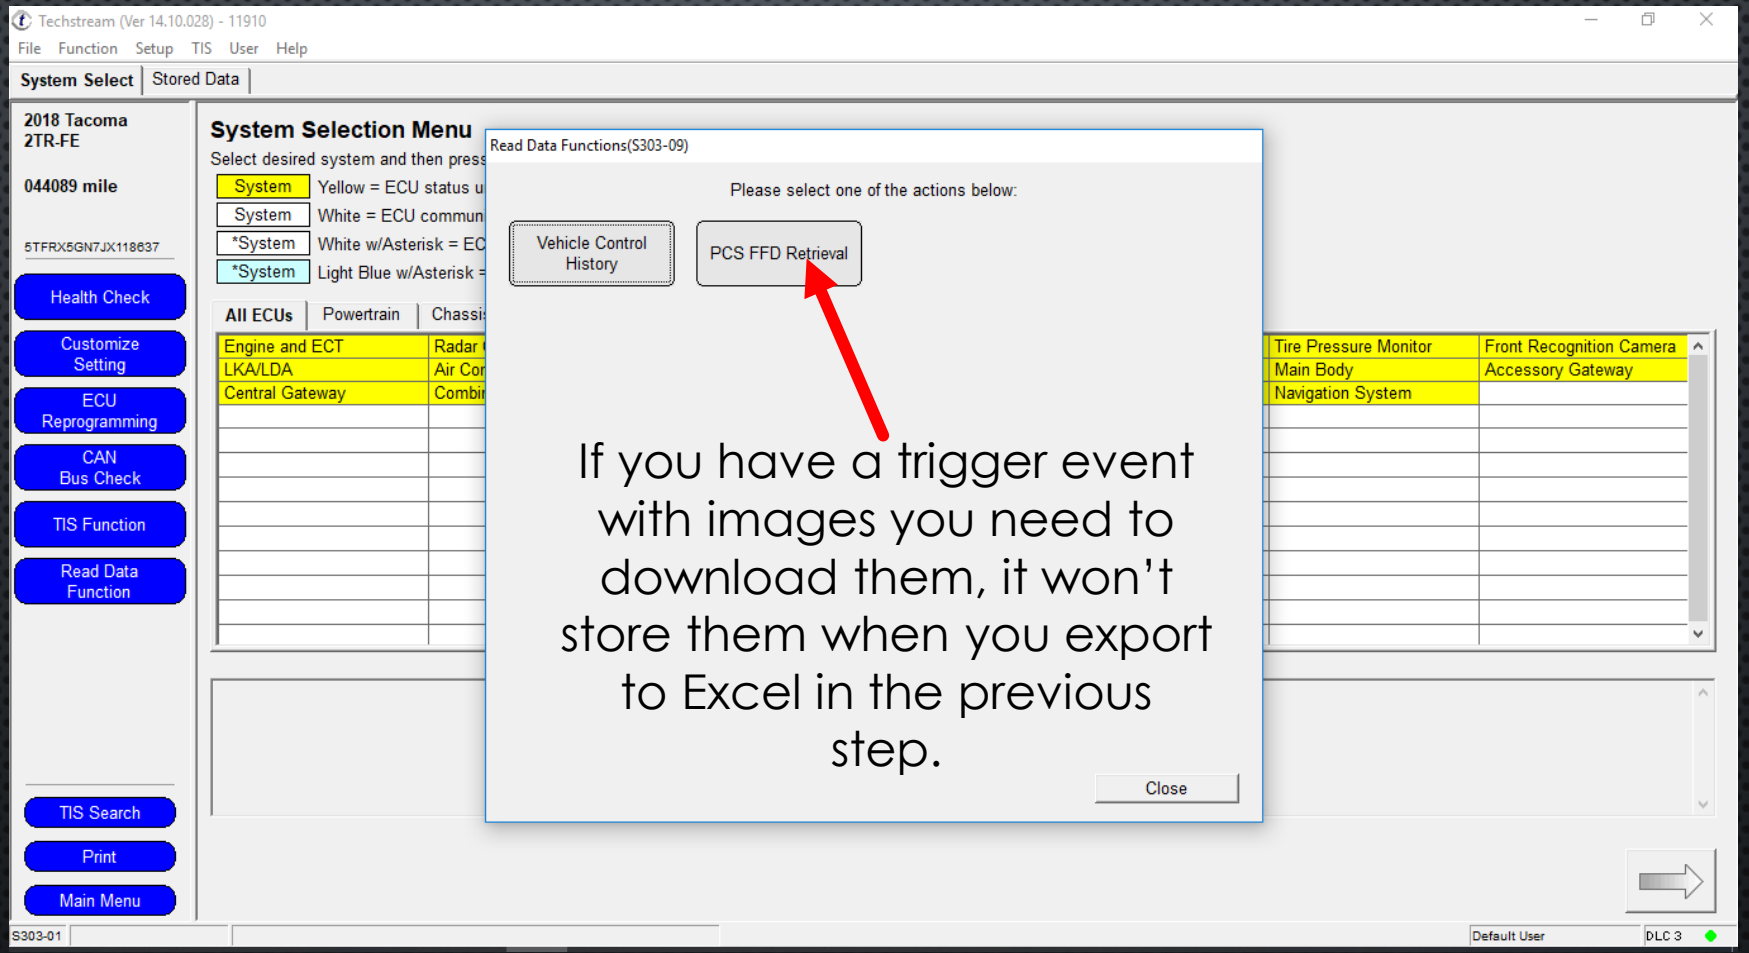

This box pops up for the trigger event

Can click through each data point here

Save to Excel for data analysis

… AND BACK TO THIS

FORWARD FACING CAMERA

- THE IMAGES ARE POOR QUALITY (160 X 102 B&W) BUT ~~ARE~~ MAY BE USEFUL
- (THESE ARE FROM A NIGHTTIME CRASH)

- DIFFERENT TRIGGERS MAY RECORD DIFFERENT QUANTITIES OF IMAGES, BUT THEY ARE ALL FROM THE SAME CAMERA. IF YOU SAVE AN IMAGES YOU'LL MAY GET MULTIPLE FOLDERS, NOT LIMITED TO:
  - VEHICLE BEHAVIOR RELATED IMAGE DATA (30 IMAGES)
  - LKA RELATED IMAGE DATA (21 IMAGES)
  - EDR RELATED IMAGE DATA (30 IMAGES)

YOUR EXCEL FILE MAY HAVE 300+ COLUMNS OF DATA ELEMENTS TO GO THROUGH FOR EACH TIME STAMP. TIME TO GET TO WORK!
